Eugenia:

A formal letter should go out with tomorrow morning's mail. I have attached an electronic copy of the draft acid rain permit and attachment A.

The public notice for the part 71 permit should state that any comments on the acid rain permit should be addressed to me:

Geoffrey Glass (AIR-3)
EPA Region 9
75 Hawthorne Street
San Francisco, CA 94105

The public comment period for the acid rain period should be identical to the public comment period for the part 71 permit. At the end of the public review period, EPA will issue the final acid rain permit.

Eugenia:

When I have briefed Gerardo and Debbie on the draft acid rain permit I can send an electronic copy of the document to Raju, but Debbie will probably want to send a formal letter to someone. Should she address the letter to you or to someone else at NNEPA?

Thank you,

Geoffrey

Thank you for the update!

We look forward to your comments and in working to finalize the NGS permit.

Thanks for reaching out.

After reviewing my notes, it looks like all of my comments were for Four Corners Power Plant, but I will take another quick look at NGS to make sure I haven't missed anything.

I have prepared a draft acid rain permit. I will brief Gerardo and Debbie on the project next week (they're out of the office this week) so the draft acid rain permit can be appended the draft part 71 permit and the two permits can be public noticed simultaneously.

Hello.

Have you had a chance to review and comment on the draft permit for NGS?

If EPA does not have any further comments, we would like to work towards finalizing our plans for public noticing.

Thank you.
